14. The following are the sanctioned items of expenditure for the preservation of the Belur and Halebid Temples:-

Sri Channakesavaswami temple at Belur.

Non-recurring - Rs. 3900 for repairs. G.O. No. 1442-4/Muz.250-24-2 dated 4-4-25.

Recurring - Rs. 500 per annum for annual repairs for three years from 1924-25. G.O. No.511-7/Muz.135-25-13 dated 13-10-1924.

A watchman on Rs. 12/- per mensem.

Total recurring Rs. 644/- per annum.

Sri Hoisaleswaraswami temple at Halebid.

Non-recurring - Rs. 1300. G.O. No.1113-5/Muz. 184-25-6 dated 3-2-1926.

Recurring - Rs. 100 per annum for annual repairs for three years. G.O. No. 511-7 Muz.135-25-13 dated 13-10-1924

Watchman on Rs. 12/- per mensem.

Total recurring - Rs. 244 per annum.

15. Proposals now submitted for sanction by the Deputy Commissioner, Hassan District and supported by the Muzrai Commissioner in respect of both the temples:

Larger provision should be made in the General Muzrai Fund Budget to meet the demand for repairs of institutions of Architectural interest in the District.

Appointment of 2 skilled workmen and an Overseer to attend to prompt repairs and weed clearing of the more important temples in the District.

16. Measures proposed by the Superintending Engineer, Shimoga Circle, for the preservation of the above two temples and submitted to Government for orders

NOTE—Contn. sheet

17 The above two proposals of the M.C. and Gh Supdt appear to have been sent independent of each other, without mutual consultation. 18 Subst for orders of the proposals are same 21/11/27 some addl grant from state funds will be necessary. X. 21/11/27 21/11/27

The question of increasing the grant from state funds to the temples is separately under consdn 22/11

19 Second Member

20. There are two proposals to be settled.

(1) Arrangements for preservation of the temples at Halebid and Belur

(2) A larger annual provision for repair and care of temples - Museum and of architectural interest

21. As regards (1) the proposals of the SE may be sanctioned. They require about Rs 2000 per annum. A sum of Rs 1000 may be given out of Savings from the Current Year total Grant of Rs 2000 from Court and Ctgn Road Funds and the P.W.D. Dept asked to start the Works at once. In addition to these arrangements a Watchman on Rs 12 for each of these two temples shd continue. Whether the recurring grants of Rs 500 + Rs 100 per annum for these temples - for 3 years as now Sanctioned - are also necessary is a point

NOTE—Contn sheet

on which the Muz Commt may be asked to report in Commutation with

22. As regards (2) the demand for a larger grant annually is very insistent. There is not a session of the R.A. at which this is not pressed. The amount we have allot is quite insufficient and many buildings of important Muz institutions and those of architectural interest are deteriorating and if prompt action is not taken, many of them, it may not be possible to put them in order at all. I would therefore propose that the annual grant from general revenues for this purpose may be increased from Rs 10000 to Rs 30000 for a period of five years.

23. The demands on the Endt Muz fund are many and some of them can not also be foreseen and this fund is the only resource on which we have to depend when unexpected requirements have to be met. It is not therefore possible to spare any money for this purpose from this fund, but the present grant of Rs 10000 should be continued to supplement the allotment from general revenues.

The Palace authorities have asked for our annual grant of a few [illegible]

for expenses for repair of Muz institutions and their management and this demand has to be provided for. If the yearly grant from general revenues is raised to Rs 3 lakhs the request of the Palace authorities can be complied with and some tangible provision made for the care of the many temples of architectural beauty in the Hassan district for which a special representation has been made. When the total grant on which we can count is settled we should adopt measures for undertaking improvement and repair work according to a well considered programme which will take into account the no of buildings requiring care, & the relative urgency of the works. Wherever the institutions themselves have balances to their credit it is not necessary to give them any aid from general revenues or the Coorg Muz Fund and action is being taken to see that all important Muz institutions are getting annually the income which their income-yielding properties are capable of yielding

No.....7839

There are a very large no of institutions which can not afford to find money from their own resources for the care of buildings of religious or architectural interest which which they possess. I think Govt should come to give all the assistance they can to put these buildings in order and prevent their falling into disrepair again. Considering the very heavy demands to be met and the urgency of most of them I do not think the grant of Rs 30,000 which I have asked for can be considered as too large.

32. It is proposed (vide para 22 supra) that the annual grant from General Revenues for Construction and Repairs of Muzrai Institutions be increased from Rs 10,000 to Rs 30,000 for a period of five years. There can be no two opinions about the need for an additional grant for this purpose. The question is mainly one of funds. During some years past, the Budgets provided for an annual grant of Rs 15,000. In the year 1905-06 the provision made was Rs 25,000/

Vide linked file

33. The current year is expected to result in a heavy deficit and I do not think it will be possible to provide additional funds during this year.

34. In my note on the Triennial Forecast I have pointed one that even after the substantial relief that will be afforded to us from next year by way of reduction of subsidy, the margin for new expenditure in the Budget would be very small. Whether, in the circumstances, it would

NOTE—Contn. sheet.

Serial No.

repaired each year and the procedure to be followed in preparing estimates and executing works. The suggestions contained in the note of the Architectural Assistant placed in the file below regarding the preservation of ancient monuments may also be considered in this connection. There are the following classes of works to be considered:-

(1) Buildings of Muzrai Institutions which have sufficient balances for works to be carried out.

(2) Buildings of Muzrai Institutions which have not enough balances for carrying out necessary repairs.

(3) Muzrai institutions which own buildings requiring repairs but which have no balances.

and

(4) Ancient monuments which are not Muzrai institutions but which require to be maintained in good repair according to the Government Order dated 14th September 1920.

39. The expenditure on works coming under class (1) has to be met from the funds of the institutions concerned. The institutions coming under class (2) require grants-in-aid. The entire outlay on works coming under class (3) will have to be met from the grants allotted for the purpose in the State Muzrai Budgets and the Budget of the General Muzrai Fund. The outlay on works coming under class (4) has to be provided for in the budget of the Public Works Department according

NOTE—Contn. sheet

WD 0321—GPB—60,000—24-5-27

General and Revenue Secretariat. | Muz 3 File No. 392 of 1927

Serial No.

to the Government Order dated 14th September 1920.

4. The Muzrai Commissioner may be requested to obtain lists of works coming under the four classes and take action on the following lines:

Works coming under class (1):-

Estimates may be got prepared in the Public Works Department and if the buildings are of any special architectural interest, they may also be referred for the views of the Architectural Assistant of the Chief Engineer's Office. Estimates will be sanctioned by the authority competent to deal with them and the works executed by the Public Works Department.

5. Works coming under classes (2) and (3) will be arranged in the order of their relative urgency and a selection made of them for execution each year. As in the case of works under class (1) estimates will be got prepared in the Public Works Department and referred in the case of works of architectural interest to the Architectural Assistant of the Chief Engineer's Office. The Muzrai Commissioner will, with reference to the estimates thus prepared, submit a statement to Government showing the grants-in-aid which might be made for the works, out of the total grant of Rs. 30,000 provided for this purpose in the State Muzrai Budget and the Budget of the General Muzrai

NOTE—Contn. sheet

Fund.

42. Out of Rs. 30,000 allotted annually, a sum of Rs. 5,000 may be treated as a reserve from which any special demands might be met in the course of the year. Of the balance of Rs. 25,000, - Rs. 2,000 may be placed at the disposal of the Palace authorities for the execution of repairs required for Muzrai institutions under Palace management. Another sum of about Rs. 2,000/- may be used for meeting the expenditure specially sanctioned for the care of the temples at Halebid and Belur. The balance of Rs. 21,000/- may be distributed among the works coming under classes (2) and (3) which, in the order of their relative urgency, are admitted into the lists of those -- selected for attention in any particular year. As the distribution will be made out of the total grant made in two budgets, it may be necessary to adopt a special proceedure for settling the expenditure to be charged to the two budgets. This may be settled in consultation with the Financial Secretary. Perhaps, all charges on account of works coming under classes (2) and (3) may be -- provisionally kept under a suspense head and --- transferred at the end of the year to the heads "13. Muzrai Institutions" and the "General Muzrai Fund" in the ratio of 2 : 1.

NOTE—Contn. sheet

43. The demands relating to works coming

WD 0324—GPB—60,000—24 5-27

General and Revenue Secretariat. | Muz File No. 392 of 1926.

Serial No.

class (4) are for other than Muzrai Institutions and have to be provided in the Budget of the Public Works Department according to the Government Order dated 14th September 1920. The estimates for these works may be got prepared in the Public Works Department and referred, in the case of works of architectural interest, to the Architectural Assistant of the Chief Engineer's Office, as in the other cases. The grants required on account of these works in any year might be settled by the Muzrai Commissioner who is the Commissioner under the Ancient Monuments Preservation Regulation, in ~~connection~~ Consultation with the Chief Engineer. About Rs 5,000 a year for five years may be provided in the Pub P.W. Budget.

44. Provision of funds for the execution of works coming under class (1) does not present any difficulty and cases may be dealt with as they arise. But even in these cases, it is well to have an annual programme drawn up, say three months before the beginning of the year. In the case of other works, however, it is necessary that the annual programme should be drawn up in good time in advance. It will be well if this programme is read along with the corresponding budgets, viz. the State Muzrai Budget, the Budget of the General Muzrai Fund and the Budget of the Public Works

Final Note by the Second Member of Council.

Subject:—

Enhancement of the State grant for construction and repairs of Muzrai buildings and laying down the procedure for the allocation of charges against the provisions made therefor in the State Budget and that of the General Muzrai Fund.

The annual provision that is now being
struction and repair o uzrai institutions
architectural interest is 20,000, of which
tributed from State funds and an equal amount
Muzrai Fund. The demand for a larger annual
insistently made in the representative assembly.
now allotted annually is insufficient and many of the
and Muzrai buildings and structures of architectural
are deteriorating for want of funds, and prompt
sary to put them in order. It is, therefore, proposed
an additional annual provision of 10,000 from
the construction and repairs of Muzrai institutions
of five years, with effect from the new official year.
total amount that will be available annually
tion and repair o uzrai institutions,
viz., 20,000 from General Revenues and 10,000
General Muzrai Fund. A sum of 5,000 out of the aggregate
the Huzur Secretary, be placed annually at
Palace for repair of the buildings of
Palace management.

2. There is at present no
the allocation o
State budget and
construction
laying down
for regulating
year and the procedure to be

and executing works.

3. The papers are submitted for gracious perusal.

Bangalore,
11th February 1920.

M. N. Narasimhan
MEMBER OF COUNCIL.

Submitted to His Highness.

I submit herewith a Final Note by the Second Member of Council on the subject of the enhancement of the State Grant for construction and repair of Muzrai buildings and laying down the procedure for the allocation of charges against the provisions made therefor in the State Budget and in that of the General Muzrai Fund for His Highness's gracious perusal.

Subject: Progress of Mutual Help Societies in Mysore.

I am directed to forward herewith a copy of a letter from the Registrar of Co-operative Societies, Mysore, on the above subject and to say that the Government of His Highness the Maharaja are in full sympathy with the movement for the promotion of mutual help societies in the State and consider it of great importance.

As regards the grant of Rs. 500 etc., if the movement is to be kept in the Pharmacy Committee's hands it will be necessary for private people to give their services and are always welcome.

As regard the scheme for skilled workers and improved methods of industry in the Kadur District under the Registrar, solely to the Mutual Help Societies and to other important Mutual Help Societies in the State.

The scope of this scheme general mutual help societies in the State concerned."

"Yours,"

R. Hemingway

CHIEF ENGINEER OF MYSORE.

T.R.S.

Letter No.1622 dated the 3rd September 1937, from the ------ Superintending Engineer, Shimoga Circle, to the Chief Engineer of Mysore.

Regarding Halebid and Belur Temples.

In accordance with the instructions given by the Dewan ---- during his tour in the Hassan District vide page 19 of the Tour -- Notes, I have the honour to submit the following proposals for --- preserving the above temples from further deterioration.

2. The temple walls and columns and roof are all affected by - want of timely attention to urgent repairs. The rain water soaks in different places and has caused much damage. The carvings and images exposed to weather are damaged in several ways.

It is therefore proposed to maintain the following establish ment for a period of 3 years in the first instance to effect ------ necessary and timely repairs to both the above temples. They will be supplied with necessary tools and materials for which a sum of Rs.500 per annum may be sanctioned.

1. Mason - Rs.50 to 60 per mensem.
1. Assistant Mason - Rs.35 to 40 per mensem.
1. Male cooly and 2 women coolies on wages ranging from annas 6 to 10 a day.

3. Early sanction to the proposals may kindly be accorded, so that the repair works may be started as soon as the monsoon closes.

General and Revenue Secretariat

No. 1338 — Exams — Dated. Bangalore, 192

From

The Secretary to the Government of His Highness the Maharaja of Mysore,
Finance / Development Departments.

To

The Registrar,
Mysore University.

Sir,

I am directed to forward the accompanying copies of Government Proceedings for the information of the University Council.

I have the honor to be,
Sir,
Your most obedient servant,

Secretary to Government,
~~Development~~ Departments.

D995

Proceedings of the Government of
H.H. the Maharaja of Mysore.

Order No. 1320-9 dated 10/2/25
Nuz 392-24-7

The annual provision that is now being made for construction and repairs of Muzrai institutions and buildings of architectural interest is Rs 20,000, of which Rs 10000 is contributed from State Funds and an equal amount from the General Muzrai Fund. The demand for a larger annual grant ~~annually~~ is very insistent. There is not a Session of the Representative Assembly at which the question ~~of for~~ providing ~~for~~ more funds for this purpose is not pressed. Government are convinced that the amount now allotted is ~~quite~~ insufficient, ~~and~~ That many of the important Muzrai buildings and structures of architectural interest are deteriorating for want of funds and that prompt action is necessary to put ~~many of~~ them in order. Government are therefore pleased to direct that an additional annual provision of Rs 10,000/- be made from State Funds for the construction and repairs of Muzrai Institutions for a period of 5 years with effect from the next official year. The total amount that will be available annually for the construction and repairs of Muzrai Institutions will thus be Rs 30,000/- viz., Rs 20,000 from General Revenues and Rs 10,000/- from the General Muzrai Fund.

2 There is at present no definite

procedure laid down for the allocation of charges to the provision made in the State Budget or the grant from the General Local Fund, on account of construction and repair. Government consider it necessary also to have a definite plan for regulating the selection of buildings to be repaired each year and the procedure to be followed in preparing estimates and executing works.

3. There are the following classes of works to be considered:-

(1) Buildings of Muzrai Institutions the sanctioned scales of which provided for annual ~~maximum~~ repairs etc., or which have sufficient balances for necessary works.

(2) Buildings ~~belonging to the~~ of Muzrai Institutions whose resources are not sufficient for the execution of necessary repairs.

(3) ~~Muzrai Institutions owning~~ Buildings of importance and/or of architectural interest owned by Muzrai Institutions requiring repairs which cannot be financed from the funds of the institutions concerned.

(4) Ancient monuments of ~~architectural interest~~ importance which, though not classed as Muzrai Institutions, require to be maintained in good repair according to G.O.No. G.604-5-105/G.M. 194-15-8 dated 14th September 1920.

4 As regards works coming under class (1) the provision of funds does not present any difficulty. The outlay will have to be met from the funds of the Institutions concerned and the cases may have to be dealt with as they arise. But even in these cases it is well to have an

annual programme drawn up 3 months before the beginning of the year. Estimates should be got prepared in the P.W.D. Department and if the buildings are of any special architectural interest, they should ~~also~~ be referred for the opinion of the Architectural Assistant of the Chief Engineer's office. Estimates will be sanctioned by the competent authority, ~~the more important works being~~ executed by the Public Works Department.

5. The institutions coming under class (2) often require grants-in-aid for the execution of necessary repairs.

6. There are a very large number of institutions which cannot afford to find money from their own resources for the care and maintenance of buildings of religious ~~and~~ architectural interest, which they possess. The entire outlay on works under class (3) will be met from the grants allotted for construction and repairs from General Revenues supplemented by the provision made in the General Muzrai Fund Budget.

7. As regards the works coming under ~~these two~~ classes (2) & (3), the Muzrai Commissioner is requested to obtain lists of works arranged in the order of relative urgency and a selection made of them for execution in each year. As in the case of works under class (1), estimates should be got prepared in the Public Works Department and referred wherever necessary, to the Architectural Assistant of the Chief Engineer's Office. The Muzrai Commissioner will, with reference to estimates thus prepared, submit a statement

to Government showing the grants-in-aid to be made for the selected works out of the total grant of s 30,000 provided for this purpose.

8 In formulating his proposals the Diwan is required to keep the following instructions will be followed:-

Out of Rs 30,000 allotted annually, a reserve certain provisions will be earmarked for the purposes specified below .

Rs 5,000/- to be kept as a reserve for meeting special demands arising in the course of the year,

s 2,000/- to be placed at the disposal of the Palace Authorities for the execution of repairs required for Muzrai Institutions under their management.

Rs 2,000/- to be used for expenditure specially sanctioned in G.O. No. 854-6/Muz.392-27-6 dated 24th November 1927 for the care of the temples at Belur and Halebid.

Rs 9,000/-

There will, thus, remain a balance of Rs 21,000 which will be distributed among the works Committee under classes (2) and (3), in the order of relative urgency in the list of those selected for attention in any particular year.

9 As the allotment of funds for the several works will according to the foregoing directions, be made out of the total provision for the construction and repairs in the two budgets, it is necessary to prescribe a special

procedure for allocating the expenditure to be charged to the two grants. Pending further consideration of this question, the expenditure on works coming under classes (2) and (3) as it is incurred, will be charged in the first instance, wholly to the State Funds and at the end of the year, one-third of the actual outlay will be transferred to the General Muzrai Fund, the remaining two-thirds being met out of the provision of Rs 20,000 from General Revenues.

10 As regards the works coming under class (4), the outlay will continue to be provided for in the Budget of the P.W.Department according to the G.O. referred to above. The estimates for these works will be got prepared in the P.W.Department with the help of the Architectural Assistant, wherever necessary. The grants required for these works in any year will be settled by the Muzrai Commissioner (in his capacity as Commissioner under the Ancient Monuments Preservation Regulation, in consultation with the Chief Engineer. ~~Government consider that~~ A sum of Rs 5,000 may be provided annually for this purpose in the P.W.Department Budget for a period of 5 years commencing from 1928-29.

// In the case of all muzrai works Government are of opinion that an annual programme should be drawn up in good time in advance of the preparation of the Budget estimates.

The Muzrai Commissioner is requested

to have this programme ready ~~along~~ with the ~~departmental~~ budgets for consideration with ~~the proposals for~~ in the State Muzrai and Public Works Department Budgets and the Budget of the General Muzrai Fund.

2/ With the additional funds placed at the disposal of the Muzrai and Public works Departments, Government hope that ~~systematic attention will be paid for the construction~~ and maintenance in ~~good repair of~~ Muzrai buildings and ~~Ancient~~ Monuments of architectural interest. The attention of all officers is drawn to the existing orders relating to ~~the inspection of~~ these buildings and ~~Government desire to impress upon them the need for carrying out these instructions with interest.~~

FINANCIAL DEPARTMENT.

G. O. No. 1326-9—Muz. 392-26-7, dated 10th February 1928.

Construction and Repairs of Muzrai Institutions.

Sanctions an additional grant of Rs. 10,000 from the General Revenues for the —— and lays down the procedure for the utilisation of the Funds, etc.

ORDER NO. 1326-9—MUZ. 392-26-7, DATED 10TH FEBRUARY 1928.

The annual provision that is now being made for construction and repair of Muzrai Institutions and buildings of architectural interest is Rs. 20,000 of which Rs. 10,000 is contributed from State Funds and an equal amount from the General Muzrai Fund The demand for a larger annual grant is very insistent. There is not a Session of the Representative Assembly at which the question of providing more funds for this purpose is not pressed. Government are convinced that the amount now allotted is insufficient, that many of the important Muzrai buildings and structures of architectural interest are deteriorating for want of funds and that prompt action is necessary to put them in order. Government are therefore pleased to direct that an additional annual provision of Rs. 10,000 be made from State Funds for the construction and repair of Muzrai Institutions for a period of five years with effect from the next official year. The total amount that will be available annually for the construction and repair of Muzrai Institutions will thus be Rs. 30,000, *viz.*, Rs. 20,000 from General Revenues and Rs. 10,000 from the General Muzrai Fund.

2. There is at present no definite procedure laid down for the allocation of charges against the provisions made in the State Budget and that of the General Muzrai Fund, on account of construction and repairs. Government consider it necessary to have also a definite plan for regulating the selection of buildings to be repaired each year and the procedure to be followed in preparing estimates and executing works.

3. There are the following classes of works to be considered:—

(1) Buildings of Muzrai Institutions, the sanctioned scales of which provide for annual repairs, etc., or which have sufficient balances for necessary works.

(2) Buildings of Muzrai Institutions whose resources are not sufficient for the execution of necessary repairs.

(3) Buildings of importance and of architectural interest owned by Muzrai Institutions requiring repairs, which cannot be financed from the funds of the institutions concerned

(4) Ancient monuments of importance which, though not classed as Muzrai Institutions, require to be maintained in good repair according to Government Order No. 6045-105—G. M. 194-18-8, dated 14th September 1920.

4. As regards works coming under class (1), the provision of funds does not present any difficulty. The outlay will have to be met from the funds of the Institutions concerned and the cases have to be dealt with as they arise But even in these cases, it is well to have an annual programme drawn up three months before the beginning of the year. Estimates should be got prepared in the Public Works Department and if the buildings are of any special architectural interest, they should be referred for the opinion of the Architectural Assistant of the Chief Engineer's Office. Estimates will be sanctioned by the competent authority and the works executed by the Public Works Department.

5. The Institutions coming under class (2) often require grants-in-aid for the execution of necessary repairs.

6. There are a very large number of institutions which cannot afford to find money from their own resources for the care and maintenance of buildings of religious or architectural interest, which they possess. The entire outlay on works under class (3) will have to be met from the grants allotted for construction and repairs from General Revenues, supplemented by the provision made in the General Muzrai Fund Budget.

7. As regards the works coming under classes (2) and (3), the Muzrai Commissioner is requested to obtain lists of them arranged in the order of relative urgency and have a selection made of them for execution each year. As in the case of works under

class (1), estimates should be got prepared in the Public Works Department and referred wherever necessary, to the Architectural Assistant of the Chief Engineer's Office. The Muzrai Commissioner will, with reference to estimates thus prepared, submit a statement to Government showing the grants-in-aid to be made for the selected works out of the total grant of Rs. 30,000 provided for this purpose.

8. In formulating his proposals the Muzrai Commissioner is requested to keep the following instructions in view:—

Out of Rs. 30,000 allotted annually certain provisions will be earmarked for the purposes specified below:—

Rs.	
5,000	to be kept as a reserve for meeting special demands arising in the course of the year;
2 000	to be placed at the disposal of the Palace Authorities for the execution of repairs required for Muzrai Institutions under their management;
2,000	to be used for expenditure specially sanctioned in G. O. No 854-6—Muz. 392-27-6, dated 24th November 1927, for the care of the temples at Belur and Halebid.
9,000	

There will, thus, remain a balance of Rs. 21,000 which will be distributed among the works coming under classes (2) and (3), in the order of relative urgency in the list of those selected for attention in any particular year.

9. As the allotment of funds for the several works will, according to the foregoing directions, be made out of the total provision for construction and repairs in the two budgets, it is necessary to prescribe a special procedure for allocating the expenditure to be charged to the two grants. Pending further consideration of this question, the expenditure on works coming under classes (2) and (3) will, as it is incurred, be charged in the first instance, wholly to the State Funds and at the end of the year, one-third of the actual outlay will be transferred to the General Muzrai Fund, the remaining two-thirds being met out of the provision of Rs. 20,000 from General Revenues. The Comptroller is requested to issue necessary subsidiary instructions for the drawing of funds and for the preparation of the accounts in the Treasury and Muzrai Offices.

10. As regards works coming under class (4), the outlay will continue to be provided for in the Budget of the Public Works Department according to the Government Order referred to above. The estimates for these works will be got prepared in the Public Works Department with the help of the Architectural Assistant, wherever necessary. The grants required for these works in any year will be settled by the Muzrai Commissioner (in his capacity as Commissioner under the Ancient Monuments Preservation Regulation) in consultation with the Chief Engineer. A sum of Rs. 5,000 may be provided annually for this purpose in the Public Works Department Budget for a period of five years commencing from 1928-29.

11. In the case of all Muzrai Works, Government are of opinion that an annual programme should be drawn up in good time in advance of the preparation of the Budget Estimates. The Muzrai Commissioner is requested to have this programme ready for consideration along with the State Muzrai, Public Works Department and General Muzrai Fund Budgets.

12. With the additional funds placed at the disposal of the Muzrai and Public Works Departments and strict attention to the instructions issued in this order, Government hope that the condition of Muzrai buildings and Monuments of architectural interest will be gradually improved.

13. The attention of all officers concerned is drawn to the existing orders noted in the margin relating to these buildings and monuments and they are requested to give effect to the instructions in regard to their inspection.
